@ <http://www.learnsd.org>

Our on-line courseware dimensions include following ...

A- Pre-assess "EarthKeeping" & Well-Being" attitudes ...

B- Build elevation profile awareness with visual learning mapXchange tools

Example :: Yellow dot at 50 mile mark on elevation transect of leg running SW from Cimarron, KS is closest to which dry river crossing?

Where was steepest climb on this leg of Cimarron Cut-Off?

C- Cultivate both compass and Lat-Long functional skills using team-based GeoScouting wetland ecology exercises!

D- Asses measurable changes over time in both dimension A & B above ...

E- Evaluate collective team performance factors shifting from competition (win-loose) to cooperation (workable compromises) to collaboration ([ALL WinWin](#) outcomes) via conflict resolution protocols!

1- All's well at our **I-35 Corridor Flyway** "outpost!"
& GeoVenturing-SD mapXchange

Optional - Monitor UN's www.Cyberschoolbus.org for more about following blurbs ...
FYI - Our globe-trotting daughter (Malia) will drive here from Metro-MN enroute
to Tokyo on 7-Oct-2004 where she's volunteered as an onboard
UN Peaceboat translator & performing artist / puppeteer ...

2- WestPac "Whale's Tale" ... Visio diagram revisions
augment MnSCU iTeach "**Blended Visual Learning**" prototypes ...

3- **KACEE Award Nomination** .. I exercised my social capital networking skills
to get Desoto Schools (USD232) at Mize Elementary School to nominate
the Cub Pack sponsored by Shawnee's Monticello United Methodist Church

Also contacted **John Deere's "Precision Agriculture" Marketing** in Lenexa, KS
to get a regional anchor point for access to their community stewardship foundation.

4- Preview my revised **KACEE Summit Profile** for "**Mentorship Experience**" Workshops (MEW)
as a sustainable development program framework that engages stakeholders ...

RuralTeleCon '04
8th Annual Conference of the
[Rural Telecommunications Congress](#)
"Putting Broadband to Work"
October 10-13, 2004 . WestCoast Ridpath Hotel . Spokane, Washington

Register
online and
save \$30

For the past eight years, RuralTeleCon – the annual conference of Rural Telecommunications Congress – has been the premier venue for understanding the issues surrounding the deployment and use of advanced telecommunications in rural communities.

Each year, the event focuses on a critical issue facing rural communities and rural residents as they use telecommunications for community and economic development.

The RuralTeleCon '04 theme is "Putting Broadband to Work" – providing attendees with the opportunity to see how investment in infrastructure is paying off in real time for rural communities around the country.

- Hear how innovative tele-health outreach has helped small communities keep their hospitals open.
- Have the opportunity to discuss public private partnerships that are bringing fiber to the home.
- Meet rural entrepreneurs whose investment in the Internet has opened new markets.
- Learn about exemplary projects and best practices that can be replicated in your home community.

[Barbara Parmenter](#) :: Fall Semester 1999

<http://www.ar.utexas.edu/courses/parmenter/gis/fall/>

The GIS tutorials and tip sheets that I continue to develop and maintain on the CRP web site generate numerous positive comments from around the world, including requests to reproduce the materials for workshops and classes. They also generate numerous pleas for more help and advice. As far as possible given time constraints I try to answer questions via e-mail, and to post additional tip sheets on the web site. I think that this set of information has been key in bringing a lot of traffic to our SOA/CRP web site. (Web site: www.ar.utexas.edu/courses/parmenter/gis/tips/)
